11.11 Pepero Day

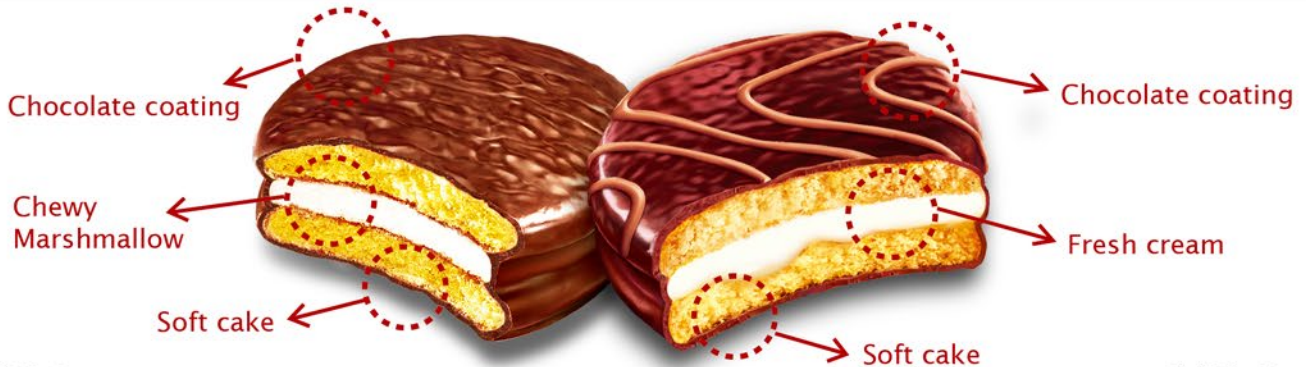

November 11, Pepero Day is a joyful special day which is more popular than Valentine's Day in Korea. The origin of Pepero Day began in 1994 when middle-school girls decided to give each other Pepero on 11/11 with wishes to become slender and tall —like the shape of Pepero or the four 1's that make up the date. This tradition has increasingly spread every year, and Pepero Day expanded and became more popular. Now, people exchange Peperos to show affection for friends, family and loved-ones on November 11 every year.
